MB 360 Display Banner

The MB 360 has been designed to showcase your message in the most innovative and creative way. The telescopic center support rod and full adjustable central hub lets you vary the height of the banner from the floor level while also allowing full 360 degree rotation, plus a screen tilt function lets you direct the banner message in any angle you need.

The distinctive design of the MB 360 heighten your display and increase exposure in free-standing open areas such as malls, show-rooms and trade shows.

Features

- Ideal in free-standing open areas
- Durable construction in aluminium color with adjustable height
- Full 360 degree rotation, vertical or horizontal placement with tilt function
- Accommodates different banner sizes (36"-48") wide and (62"-78") high
- Custom full color graphics to your specifications
- Light (4 lbs), simple to install and store
- Available in satin or matte display fabric
